DESCRIPTION

An experimental mix of materials meet in a carefully considered design with a personal expression. An artful fusion of wood and steel, Hans J. Wegner's versatile CH88 Chair epitomizes his characteristically playful approach to design and materials. Versatile and elegant, with a simple, stackable design that seamlessly joins wood and industrial steel, the CH88 showcases Wegner's skill in combining softness and minimalist shapes. The steel frame supports an oval wooden seat and a steam-bent backrest with elegantly upturned ends forming a natural resting place for the arms.

DESIGNER

Danish architect Hans J. Wegner (1914-2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime – many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as 'the Golden Age' of modern Danish design. Almost all of the world's major design museums, from the Museum of Modern Art in New York and Designmuseum Danmark in Copenhagen to Die Neue Sammlung in Munich, exhibit his works.
