The Harbour Chair – an armchair with a continuous, enveloping shell – is available with textile and leather upholstery or with a bare shell. MENU's upholstered chairs are priced in four categories. Prices vary depending on the textile or leather you select.

The Harbour Chair – a sublimely comfortable pairing of versatility and minimalist style – now offers even more base options for living and working the way you like. First, there's a swivel version for unmatched freedom of movement and, if you choose, easy rolling. And second, you'll find sleek bar and counter base options that let you pull your favourite chair up to your favourite surface, whatever its height.

Bar/Counter Steel Base - Whether you love to eat, work and hang out at the countertop bar, or prefer the elevation of the high top, the new bar and counter versions invite you to pull right up. The slender and sculptural geometric bases are designed with a comfy crossbar for the feet at just the right height to prolong comfort and keep your posture in top form. The bases are available in black or light grey powdercoated steel.

Both the Harbour Chair swivel base and the bar and counter bases are available with the ergonomic shells of your choice, whether that's upholstered in textile, leather, or not at all. The bare shell is available in six colors, while the textile and leather options come in a range of colors – and can be customized. The bar and counter base is available in black or light grey powder-coated steel.

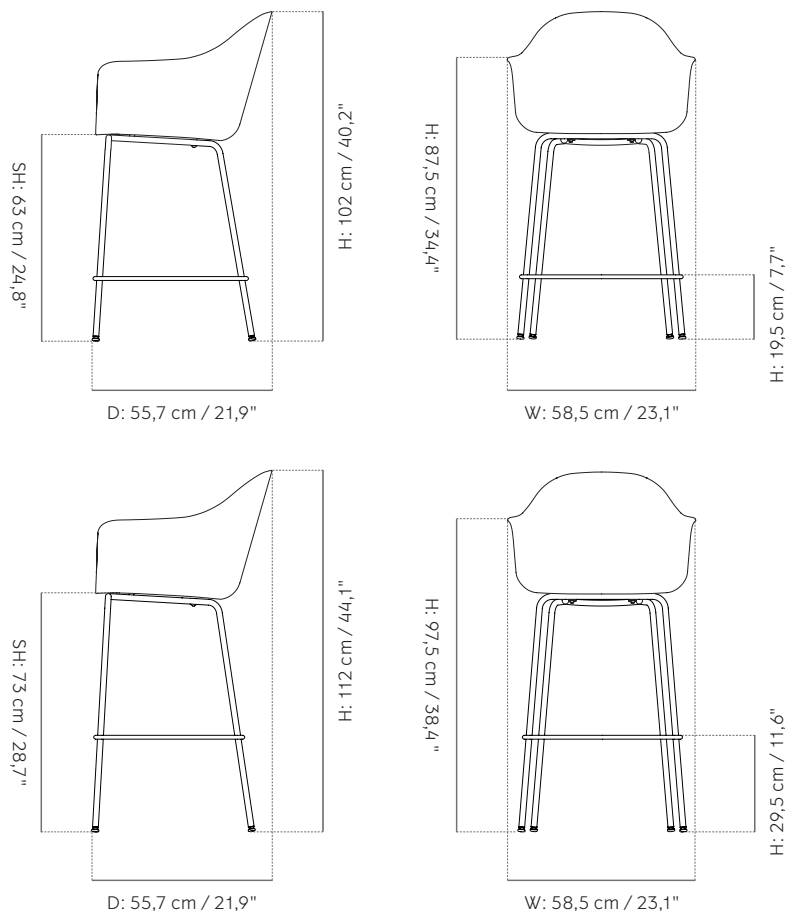

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings.

Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
