

wästberg / w 151 extra large pendant

Product Information

Lamp fixtures have historically been shaped to encase different light sources, such as the light bulb, and to act as a reflector to direct the light. Because of the physical shape and size of the light source, the light fixture itself was of significant size. Today, thanks to new technology, the almost zero-sized light sources do no longer limit the size and shape of the light fixture. Consequently, minimising has become the design norm.

However, with pendants in particular, the light fixture has always played an additional role. Apart from providing light – it shapes the room. The lamp that hangs from the ceiling, often above a table, creates a room within the room.

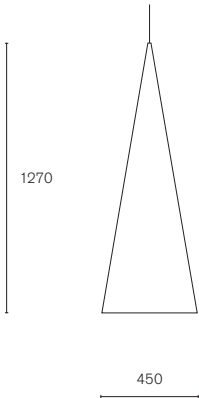

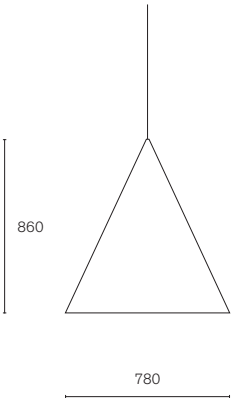

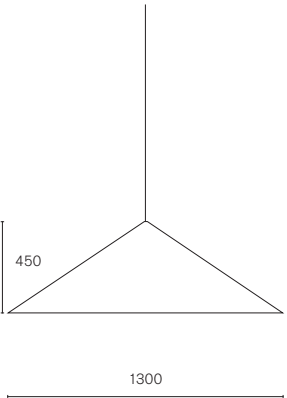

In the w 151 extra large pendant, we are bringing back the room-shaping quality – not with one lamp, but three. Based on the most basic of geometrical shapes – the cone – the lamp comes in three variations: the tall and narrow, the archetypical and the low and wide. All three are super-sized, pushing the limits of manufactured spun aluminium, yet fitting through a normal doorframe.

In addition to the quality of light, the feature of this lamp is its size. Paired with careful control of the fine details and the paper-like matt finishes, the lamp is almost illusory; dream-like – when experienced in reality.

Design: Claesson Koivisto Rune

Material	The w 151 extra large pendant is made of spun aluminium.
Integrated LED	The light technology is based on a highly energy-efficient, high quality LED solution, which gives a warm white light.
Glare-protecting shade and diffuser	The shade protects from glare, while the diffuser gives an evenly distributed light.
Dimmable	The w 151 extra large pendant has integrated dimmable electronics, enabling dimming from external dimmers and lighting control systems.
Coloured inside	Using LEDs to direct the light directly downwards, the shade is not used as a reflector. This gives the opportunity to paint the inside of the shade in the same colour as the outside, without destroying the quality of the light. The result is a beautiful and, at the same time, playful effect, as a small amount of light lights up the coloured inside of the shade.

Product name	w151 extra large pendant s1	w151 extra large pendant s2	w151 extra large pendant s3																																				
Dimensions (mm)																																							
Model	Pendant lamp	Pendant lamp	Pendant lamp																																				
Mounting	Steel wire reinforced cable included	Steel wire reinforced cable included	Steel wire reinforced cable included																																				
Material	Aluminium	Aluminium	Aluminium																																				
Cord length	450 cm (cable and wire)	480 cm (cable and wire)	500 cm (cable and wire)

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
