

## BONG FLOREAL

Catalog

Year of production **2016**

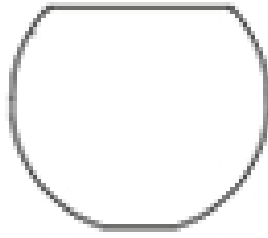

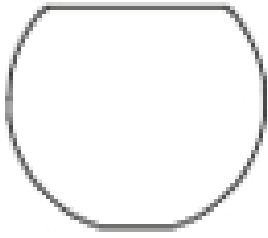

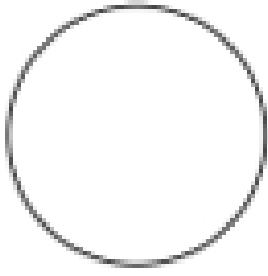

Bong is coming back as a main character of interior design with the Bong Floreal version, a spherical table with integrated top obtained by cutting a portion of the sphere that defines the project. Made of resin and fiberglass, the Floreal decoration, like the marble one, is realized with Dip-Print three-dimensional decorating system. The project is also available in the Lava Vulcanica variant with lava powder from Mount Etna applied manually on the surface.

## Designer

### Giulio Cappellini

Milano1954

Giulio Cappellini is a Milanese architect who has been working since 1979 with an energetic spirit and refreshing goals. Through the years his work transformed into that of a designer's, offering a personal approach to contemporary design. He has successfully established both his brand and his name and has worked as the art director for other key design brands. His most important project, the "company", transformed Cappellini into one of the biggest trend-setters worldwide. His lectures at the Milan Architecture University always generate great interest from Montreal to Valencia.
