The Overview

Space Copenhagen

The design duo Space Copenhagen continues to make headlines with their signature style of elegant yet classic design lines imbued with a contemporary edge in an approach they call Poetic Minimalism. Ideas that emerge from intuition and emotion. In their work with Fredericia, they seek to rethink upholstery traditions in practice at our factory for more than 100 years.

Swoon Chair by Space Copenhagen

Soft, organic lines. A sculptural silhouette. An elegant design that invite you to come closer, encouraging you to live life at a slower pace. Those are just some of the intentions behind the Swoon Chair by Space Copenhagen.

The Swoon Chair reflects Space's intuitive approach to design, which is inspired by circumstances and the human condition. Drawing on their impressive projects in the hotel and hospitality sector, they were keen on a sophisticated look that would lend itself to hours of comfort. Their initial outcome was the Swoon Lounge, which was designed for the 11 Howard Hotel in New York.

Similar curvaceous contours can be found in the Swoon Chair, which echoes the same look except

it's smaller and more upright. The shell merges the armrests, seat and back, while the ample cushions fit snugly, ensuring the utmost in comfort. Leather and an assortment of fabrics allow you to personalise the chair for any cosy setting, with the choice of wooden legs or the swivel base in metal.

Whether you envision it in a private residence, meeting room, hotel lobby, reception or restaurant, the Swoon Chair adds an unspoken elegance to virtually any interior. Triggering an uncanny desire to take your time to enjoy the moment.

Swoon Lounge & Swoon Lounge Petit by Space Copenhagen

With its continuous curves, lush look and sculptured shape, Swoon echoes Space Copenhagen's desire for you to enjoy life at a slow pace.

Originally launched for the 11 Howard Hotel in New York, the Swoon Lounge is an open invitation to luxuriate in comfort. Based on their extensive experience designing high-end hotel interiors and Michelin-star restaurants, Space Copenhagen created Swoon to fill a gap missing in the market – a hybrid of a lounge chair and an armchair with the benefits of both. The singular shell merges the back, seat and armrests into one entity, allowing for exceptional support and a fit that feels natural. The seat and back cushions are also attached as one piece for endless hours of comfort.

Swoon is suitable for hotel lobbies, VIP suites, restaurant reception areas, upscale bars, lounges and private residences.

Of course, the perfect companion to any lounge chair is an ottoman. The Swoon Ottoman not only adds to your ability to stretch out and relax even more, it's a decorative element in its own right. Ideal as a pouf for punctuating any space with style.

Look for the same casual take on elegance in the Swoon Lounge Petit. Slightly smaller in size, it features a high back designed at a more upright angle. The result is a chair that invites you to unwind, making it conducive for conversations or working on your laptop.
