# Fat-Sofa Outdoor

ARMCHAIRS

*Patricia Urquiola*

## Description

The rounded, soft and sinuous shapes of the Fat-Sofa seating system are the base for the new outdoor version, characterized by a brand new interlacing design. Its fully padded seat is accompanied by a metal frame backrest that supports the original weave, creating a special play of fullness and emptiness. The large weave pattern, made of tortora coloured twisted polyethylene fibres, makes the design unique, respecting the designer's idea of lightness, transparency and puts the furnishings in an open "dialogue" with the surrounding environment. Fat-Sofa Outdoor consists of six types, ranging from two height variants of the armchair, from the linear sofa to a large relax island, to a range of different sizes of ottomans.

# Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
